Dear Sir,

<u>Our GitHub Occur Some Error at Last Minute</u>

The Code We All Did and Pushed We Cannot Download and run it after We Pushed It to GitHub.
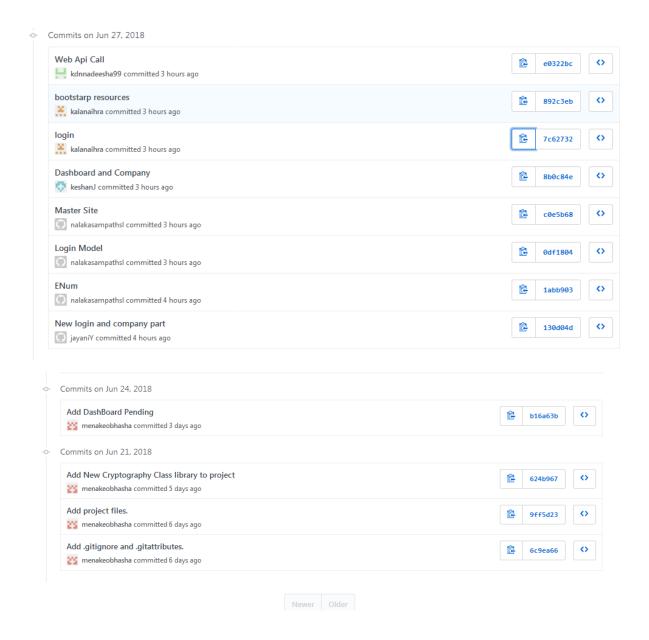

We Have Proof Of It Too Here With Some Screen Shots And OUR Pushed GitHub Link. At Last We put All Code to One Repository Sir Please.

Consider This Matter.

After that we tried to create a new repository and upload the files again but it doesn't worked so we created this new repository to give you the working and not working projects through the google drive.

Here our new GitHub repository invitation link:
https://github.com/menakeobhasha/SilentAssassins/invitations

Repository link:
